

**ADOPTION OF SUSTAINABLE ACCOUNTING PRACTICES FOR REPORTING**

## BACKGROUND

Collectively SMEs have great social, environmental and financial impact ; More than 70% of all pollution can be attributed to SMEs.

Barriers preventing SMES from reporting on sustainability:

- ◇ Complex sustainability frameworks;
- ◇ Lack of knowledge regarding sustainability problems and the potential benefits of sustainability practices;
- ◇ Lack of experience or expertise to address sustainable issues

## PROJECT'S AIM

Help small and medium size business report on their sustainability by providing the necessary training and tools for SMEs to adopt sustainable accounting and reporting practices in a cost-effective way.

## OUTPUTS

- ◇ **Training modules for learners:** Training content for SMEs staff to improve both hard and soft skills related to Sustainable Reporting. The content will be ECVET learning outcomes compliant.
- ◇ **Training delivery environment:** An online training environment facilitated by a Social learning Motivational environment.
- ◇ **Trainers' guide:** A guide for the trainers to administer the training modules .
